Interior Window

illume interior windows are an eye catching contemporary design solution to a common construction limitation. illume interior windows offer a sense of openness to a room with the ability to include the aesthetic of familiar comfort lighting to areas where traditional windows typically can't be fitted.

Designed to complement any area of a home or building, illume interior windows use Ambient Light Technology (A.L.T) to illuminate dark, gloomy rooms in your home. Our illume Interior Window can be installed into any available wall space.

The contemporary product design is especially effective where the installation of a traditional window would be impractical due to the limitations of an obstructed view, opposing wall or adjacent construction.

FEATURES

- Switchable mains / solar power
- Auto-adjusts light output
- Modern contemporary design
- Flush or recessed installation
- Battery back-up available
- Window transfers no noise or heat - No UV emissions
- Optional Pre-fabricated architraves
