

**illume Skylight Alternative System  
Installation Option 1 - Solar Isolation Switch Kit**

**STANDARD INSTALLATION**

If a room needs to be darkened during daylight hours, installing an isolation switch kit is the perfect solution. This is ideal if the illume Skylight Alternative System is installed in an area such as near a media room.

**PARTS LIST:**

- 1x DC Wall Switch
- 1x 2-Core DC Cable (6m)
- 1x Instruction Sheet

**Cable Connection**

Fit DC isolation switch cable between Control Module and Solar Panel.

**Note: Do not run DC cable alongside AC power.**

The switch supplied in this kit is low voltage - **DC ONLY**. It is **NOT** compatible with AC mains power systems and must be installed separately.
