Remote Dimming Switch

Have you ever wanted to dim or switch off your illume?
Perhaps it's near your media room and you want to watch
a matinée movie. With the Remote Dimming Switch Kit you
can easily adjust the lighting level in your space and, it's so
simple to install, there's no need for an electrician.

The illume Remote Dimming Switch Kit is the perfect
accompaniment for your illume Skylight Alternative.

Simply connect the receiver between the solar collector and control
module, code in the remote and you're done.
